Diodes Incorporated Updates Second Quarter 2011 Guidance

Dallas, Texas — June 9, 2011 — Diodes Incorporated (Nasdaq: DIOD), a leading global manufacturer and supplier of high-quality application specific standard products within the broad discrete, logic and analog semiconductor markets, today updated its guidance for the second quarter of 2011.

The Company is maintaining its revenue guidance for the second quarter of 2011 as it anticipates revenue to range between \$170 million and \$178 million, an increase of 5 to 10 percent sequentially. The Company is lowering its gross margin guidance to 32.5 percent plus or minus 1.5 percent, versus its previous guidance of comparable to the first quarter. Gross margin is being impacted by a mix shift due to a softening of demand and the slower than expected recovery from the previously disclosed manpower shortages at the Company's China packaging facilities. The previous guidance for operating expenses, tax rate and shares used to calculate GAAP EPS remains unchanged.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995: Any statements set forth above that are not historical facts are forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Such statements include statements regarding our expectation that: the Company is maintaining its revenue guidance for the second quarter of 2011 as it anticipates revenue to range between \$170 million and \$178 million, an increase of 5 to 10 percent sequentially; the Company is lowering its gross margin guidance to 32.5 percent plus or minus 1.5 percent, versus its previous guidance of comparable to the first quarter; gross margin is being impacted by a mix shift due to a softening of demand and the slower than expected recovery from the previously disclosed manpower shortages at the Company's China packaging facilities; and the previous guidance for operating expenses, tax rate and shares used to calculate GAAP EPS remains unchanged. Potential risks and uncertainties include, but are not limited to, such factors as: we may not be able to maintain our current growth strategy or continue to maintain our current performance, costs and loadings in our manufacturing facilities; risks of domestic and foreign operations, including excessive operation costs, labor shortages and our joint venture prospects; unfavorable currency exchange rates; our future guidance may be incorrect; the global economic weakness may be more severe or last longer than we currently anticipated; and other information detailed from time to time in the Company's filings with the United States Securities and Exchange Commission.
