### Diodes Incorporated Increases Third Quarter 2009 Revenue Guidance

**Dallas, Texas — September 9, 2009** — Diodes Incorporated (Nasdaq: DIOD), a leading global manufacturer and supplier of high-quality application specific standard products within the broad discrete and analog semiconductor markets, today increased its guidance for the third quarter of 2009.

Due to continued improvement in demand and order rates, primarily in Asia, the Company is raising its previous guidance and now expects third quarter revenue to increase 13 to 17 percent over the second quarter revenue versus the prior guidance of 10 to 15 percent sequential growth. The Company is maintaining its guidance for gross margin at the previous level of approximately 28 to 32 percent. The revenue increase is driven primarily by demand for the Company's products utilized in equipment such as LCD televisions and panels, set-top boxes, mobile handsets and netbooks.

The Company continues to expect operating expenses to be comparable to the second quarter on a percent of revenue basis and our tax rate to be a relatively nominal amount of zero to four percent as identified in our previous guidance for third quarter of 2009. In accordance with FSP APB 14-1, GAAP results will include approximately \$2.2 million of non-cash interest expense from the amortization of debt discount related to the Company's Convertible Senior Notes.
